

The City of Hamilton announces the 2021 Urban Design and Architecture Awards winners

By Canadian Architect — On Nov 15, 2021

In celebration of design excellence in Hamilton over the past two years, the 2021 Urban Design and Architecture Awards held a virtual ceremony on November 4, 2021.

The biennial awards program received 37 submissions from architects, urban designers, planners, landscape architects, engineers, consultants, owners and college/university students. Each submission was evaluated by a volunteer Jury consisting of design professionals and a student.

Award winners were determined by the Jury's review which was based on the following evaluation criteria: contribution to the public realm, success of massing, orientation, scale, materiality and contextual integration. Quality of execution, innovation and uniqueness, energy efficiency, sustainability, adaptability or resiliency. Comprehensiveness, creative solutions clarity, and community Involvement.

Eleven award winners in seven categories were chosen by this year's Jury:
